Classification and characterization of the event

It is with this aim in mind that VINIDEAs organizes the 6th **infowine.forum** in Vila Real's Municipal Theatre, from **May 23rd to the 24th**.

Arranged in such a way to allow an exchange of valuable knowhow and experiences the 6th **infowine.forum** will count with the cooperation of companies, wine producers, researchers, wine journalists, oenologists and oenophiles, in a program that will highlight some wines to taste!

Regarding the presentation during the event and selection

We emphasise, during the event, the oral presentation of posters from the selected works, oral presentation that is optional and will occur in the main congress auditorium. The remaining works will be presented throughout the two days in the more traditional paper format.

On the posters location: The posters will be displayed in the main foyer in order to be accessible to visitors during the congress.

Selection of abstracts: The abstracts will be selected by the scientific committee of Innovine & Wine. Logistics, as well as

The complete articles will have the possibility of being published in a science magazine indexed in JCR - SCIENCE AND VITICULTURE TECHNIQUE / JOURNAL OF VITICULTURE AND ENOLOGY - a bilingual journal (Portuguese and English) published every six months since 1982.
